nursing@camden.rutgers.edu
(856) 225-6281

The Rutgers University–Camden [Undergraduate Course Catalog](#) provides descriptions of courses below.

Second-year student applicants must have completed:

- Principles of Biology or General Biology (no lab required)
- Chemistry I and Chemistry II with labs, or General Organic Biochemistry with labs
- English Composition I and II
- Introduction to Psychology
- Statistics
- Genetics*

*Recommended Prerequisite. If you have not completed the Genetics requirement prior to transferring into Rutgers School of Nursing–Camden, we will build it into your curriculum.

Applicants accepted into the second year are required to complete **Seminar in Professional Nursing** as a prerequisite to any other nursing courses.
